24/7
IN-HOME SUPPORT

Round the clock care and support in your own home

Pearl
HOME CARE

Round the clock care in your own home

Pearl Home Care understands the desire of participants and their families to receive supports that enable them to live in their own home for as long as possible.

Our team of dedicated personal carers and clinical staff work together to deliver tailored assistance around the clock ensuring your needs are met throughout the day and night.

Our dependable and compassionate team offer the peace of mind that your health and wellbeing are supported, your comfort and dignity are maintained, and tasks around your home are completed to enable valuable time to be spent with family and loved ones.

Our care plans are structured around your stage of life or immediate condition, with a view to avoiding the need for residential care. Your carefully selected care team assist you in your home on a set schedule, including day support and sleep overs, or fully supervised night supports.

Individualised and tailored supports

Your personal and carefully selected care team may consist of a combination of personal support workers and nursing staff who will be scheduled to deliver your clinical care and supports around the home at the times you need them.

Our team work with you to develop personal, tailored care plans to ensure your therapeutic or rehabilitative needs are addressed and you remain in control as these change.

Build your 24/7 care team today

For more information on how our team can assist you to maintain your independence, contact us for a complimentary and obligation FREE discussion, in-home assessment and care plan estimate.

We will work with you to personally select and build your care team ensuring they become valuable and trusted members of your family.

Our carers provide the support that will assist you or your loved one to move about their day with ease and to remain connected to all that's comfortable and familiar.

Overnight care

Your trusted care team remains available to support you on fully supervised night shifts to ensure your comfort, safety and wellbeing and the peace of mind for loved ones that your needs are being met at all times.

With particular expertise in dementia care, Pearl Home Care's round-the-clock supports manage the risk of those exhibiting confusion, wandering or other behaviours.

- **Nursing Care** – short-term or ongoing care to recover after a hospital stay or illness
- **Overnight Supervision** – sleepover with scheduled check-ins or fully supervised evening shifts
- **Personal Care** – assistance with hygiene and personal care activities, like getting ready for bed
- **Continence Care** – assistance with toileting and changing
- **Catheter Care** – maintenance and emptying
- **Falls Prevention** – safety monitoring and assistance with movement
- **Medication Assistance** – keeping medications on schedule
- **Wound Management** – assistance to care for and manage a current wound
- **Allied Health** – specialised therapies and support
- **Ventilator Management** – respiratory and lung monitoring and infection control
- **Meals and Nutritional Support** – preparation and feeding support
- **Domestic Assistance** – light housework, laundry and changing of bed linen
- **Mobility Assistance and Transfers** – reducing falls and physical transfer support
- **Palliative Care** – pain management and end of life care in your home
- **Behaviour Management** – dementia care and behaviour support
- **Carer Respite** – for carers to rest and recharge
- **Companionship** – overcoming feelings of loneliness and isolation, or assistance to go out in the evening
- **Transport** – to social events and medical appointments
